Support from pharmaceutical partners helps make this event possible. As such, it is important that we comply with the various codes and directives relating to the manufacturing, distribution, and marketing of pharmaceutical products. The Human Medicine Regulations 2012, (clauses 294-300) and the European Union directive (2001/83/EC, article 86) provides guidelines relating to medicinal products for human use. Within these guidelines is the restriction that access to

pharmaceutical product marketing activities must be limited to only those participants licensed/authorised to prescribe or supply medicinal products.

All participants, with the exception of the exhibitors, are asked the following question during registration: Are you licensed/authorised to prescribe or supply prescription only medicines?

Within the virtual event platform healthcare professional authorised to prescribe prescription medicines will be recognized with a letter P (Prescriber) indicated after their names.

Within the virtual event platform, all exhibitors (booth admins) will be recognized with a letter E (Exhibitor) indicated after their names.
