NeuroServo

2065 rue Parthenais suite 416
Montreal
H2K 3T1
Canada
Booth #: 10B

<https://www.neuroservo.com> NeuroServo has created VEEGix, a miniaturized instant use prefrontal and temporal EEG for Intensive Care Units, Emergency Rooms and Operating Rooms. VEEGix can be installed in one minute by a nurse and provides an instant status of the brain. VEEGix provides spectrographic views of the brain (useful in case of seizure suspicions) as well a sedation index, and suppression ratio.

Perceiv AI

<https://perceiv.ai>

1700 Saint-patrick St. Suite 7.117
Montreal
H3K1A7

CanadaPerceiv AI is an AI-driven precision medicine company developing a powerful multimodal prognostic platform to forecast disease progression in neurological diseases like Alzheimer's. By providing a window into individual patients' disease progression, Perceiv AI aims to accelerate and de-risk the development of new therapies while enabling timelier diagnoses.
